In my classroom, I have integrated technology into our day, we are mastering the art of how to use technology in general and appropriately. Throughout college I took courses to show me how to implement technology into my room on a daily basis. Often, I make my own worksheets so that I can get across the information I believe is important.

What I want you to take away from this lesson is an understanding of how to sell worksheets or tools that work for you in TpT.

The Basics of Getting Started

1. Set up your store. Pick a name you are going to sell under.
2. Make at least two products:
 - a. 1 free product
 - b. 1 paid product

- » It's recommended to use PowerPoint.
 - » [How to Make Worksheets](#)
- » Be sure to include cover page, terms of use, and credits for graphics and fonts.
- » You can purchase fonts/clipart on TpT or Etsy.

- » If you use the office products you do not have to give credit.
 - » The only exception is when you use clipart (this is not allowed)
- » **YOU MUST GIVE CREDIT TO FONTS/CLIPARTS USED**
